

ERGOTRON®

LX Dual and Triple Display Lift Stands

Highlights

- Constant Force™ (CF) patented lift-and-pivot motion technology produces smooth adjustment
- Effortlessly adjust multiple monitors to the most ergonomically comfortable position
- Monitors move in tandem to maintain horizontal integrity
- Increase productivity and reduce errors
- Make efficient use of desk space
- Easy to use—simple installation and effortless operation
- 5" (13 cm) height adjustability
- Integrated cable management
- Monitors can be installed portrait or landscape
- 5 year warranty

Raise and tilt your displays for maximum productivity

These cutting-edge solutions easily lift two or three displays* on a single base while providing five inches of height adjustment. Simultaneously lift and tilt displays with just a touch of the hand for maximum ergonomic comfort. The LX Dual and Triple Display Lift Stands enable multiple documents to be viewed at one time ensuring the utmost productivity and accuracy in any work environment.

Effortlessly adjust multiple monitors to the most ergonomically comfortable position

Monitors move in unison to maintain horizontal integrity

Multi-monitor solution will increase productivity and reduce errors

Make efficient use of desk space

Easy-to-use—simple installation and effortless operation

* LX Dual can be used to hold a single widescreen display of up to 30" (76 cm)
 LX Triple can be used to hold two widescreen displays of up to 30" (76 cm), call for more information

90° pivot for portrait or landscape viewing.

Cables are guided behind the stand for a clutter-free work area.

Why use a multi-screen configuration?

- 33% fewer errors are reported as a result of multi-screen configurations.
- 24% of workers feel more comfortable when using multiple monitors.
